

CREWFIT 165^{SPORT}

INFLATABLE LIFEJACKET

Entry level to the Fusion 3D range, the Crewfit 165N Sport is our most compact lifejacket yet and one of the lightest lifejackets available on the market today. This is achieved whilst continuing to include the integral safety features required to ensure the recreational user remains as safe as possible when out on the water.

The unique bladder shape with light and hood attachment points is designed to rotate the wearer into a face up position - even if unconscious.

All of this, plus the addition of our Fusion 3D technology, ensures a benchmark product that offers a comfortable and bespoke fit. The Crewfit 165N Sport is available in four distinct colourways, representing real value for money with no compromise on safety, comfort or style.
