

Announcement of Products Upgrade

—— NFPA 1971 Standard Turnout Gear

To: Lakeland's Customers

Lakeland FIRE series certified to the NFPA 1971 standard mainly include three styles: Attack™, Battalion™ and Stealth™. This series of products have been trusted by many customers and widely used in the field of fire rescue.

In order to promote the Lakeland FIRE series more in line with market demand and user experience when confronting with the growing and changing global markets, Lakeland will update the Lakeland FIRE series certified to the NFPA 1971 standard From July 5, 2018, and provide the high-quality products and considerate services better for the customers.

The sales deadline of NFPA 1971-2013 version of fire series is August 10, 2018, which will not be produced and sold since that time, and they will be completely replaced by NFPA 1971-2018 version.

Upgrade Points:

- Compliant to the new 2018 Edition NFPA 1971
- Material upgrade (outer shell and thermal liner)
 - ADVANCE is replaced by PINEER for the outer shell, which can be used for Battalion or Stealth styles. Pioneer, the new Kevlar® / Nomex® blend fabric is lighter and more flexible, and still delivers the good strength, durability and thermal protection due to TenCate's innovative ENFORCE™ Technology.
 - Aralite® is replaced by Q-8® or Defender M SL2 for thermal liner. Q-8 will be used for Attack and Battalion styles, Defender M SL2 will be used for Stealth style.
- Design upgrade
 - "Easy Grip" DRD design upgrade
 - New radio pocket flap has two Velcro fold up corners. No need to specify any Antenna Notches as they are now built in on each side!
 - New universal flashlight holder. It includes the Inward Snap on top, a small slide clip in between and a 2x9 Velcro strap below to fit any.
 - 7" black 100% Kevlar® thumbhole wristers replace 4" Nomex® wristers.
 - New knee reinforcement design.
 - New underarm design, more comfortable and freedom of movement.

(More upgrades will be specified separately for the specific products)

The above Upgrades are only for the standard fire products in Asia-Pacific region. Please contact our sales or technicians for any question or details.

ATTACK™ Upgrade detail of 2018 Edition NFPA 1971

OLD

NEW

ATTACK™ Coat

Thermal liner: Q-8 replaces Aralite in new version.

① 7" black 100% Kevlar® thumbhole wristers replaces 4" Nomex® wristers, black color cuff reinforcement.

② The universal flashlight holder is widened and 2"x9" Velcro is added at the bottom.

③ New radio pocket flap has two Velcro fold up corners, No need to specify any Antenna Notches as they are now built in on each side.

④ Remove the arm lime/yellow triple trim.

⑤ New underarm style can reduce the amount of material stacked under the armpit, more freedom of movement and comfortable, and effectively preventing the coat from being pulled up.

OLD

NEW

ATTACK™ Pants

Thermal liner: Q-8 replaces Aralite in new version.

⑥ New Knee Reinforcement design.

Adopted a new shape for knee pads to help cover more surface area for increased wear and comfort. The Side-Kick Knee Reinforcements will give firefighters more protection to the outside area of the knee/leg when bumping into walls in the darkness of a smoke-filled room. More coverage, more protection.

⑦ Knee Reinforcement and pants cuff Reinforcements are both black Arashield.

⑧ Suspender: Black-Ops 135R replaces 136RL.

ATTACK™ STANDARD FEATURES

Attack™
